The Jackass Frigate was a Continental frigate that served in the American Revolutionary War. It was one of the first ships commissioned by the Continental Navy and played a significant role in the early years of the war, participating in several important battles and capturing a number of British ships.

Design and construction

The Jackass Frigate was built in Baltimore, Maryland, in 1775. It was a three-masted ship with a length of 140 feet and a beam of 40 feet. It was armed with 26 guns, including 12-pounders and 6-pounders.

Service in the American Revolution

The Jackass Frigate was commissioned into the Continental Navy in 1776. Its first commander was Captain John Manley, who led the ship in a number of successful raids on British shipping. In 1777, the Jackass Frigate participated in the Battle of Valcour Island, where it helped to delay the British advance into Lake Champlain.

In 1778, the Jackass Frigate was commanded by Commodore John Barry, who led the ship in a number of important battles, including the Battle of Cape May and the Battle of the Chesapeake. In 1779, the Jackass Frigate was captured by the British in the Battle of Charleston. However, the British were unable to repair the ship and it was eventually burned.

Legacy

The Jackass Frigate was one of the most important ships in the Continental Navy. It played a significant role in the early years of the American Revolution, participating in several important battles and capturing a number of British ships. The Jackass Frigate is remembered as a symbol of the fighting spirit of the American Revolution.
