The novel opens with Norah and her husband, Eric, on a seemingly idyllic vacation. But when they return home, Norah's behavior begins to change. She becomes withdrawn and suspicious, and she begins to see strange things out of the corner of her eye. She is convinced that Eric is watching her, following her, and plotting to kill her.

As Norah's paranoia grows, she becomes increasingly isolated. She stops going to work, she cuts off contact with her friends and family, and she spends her days alone in her apartment, barricaded behind the door. She is consumed by fear and suspicion, and she is convinced that everyone is out to get her.

Norah's mental state continues to deteriorate, and she becomes increasingly violent. She attacks Eric, she smashes things around the apartment, and she even attempts to kill herself. She is a danger to herself and others, and it becomes clear that she needs help.

But who can help her? Eric is unable to reach her, and her friends and family are afraid of her. She is alone and isolated, and her descent into madness seems unstoppable.

Norah Wolfe Has Gone Insane is a chilling and suspenseful thriller that will keep you on the edge of your seat from beginning to end. It is a story about the power of fear and paranoia, and the devastating consequences that can occur when someone loses their mind.
